

# Exposome Austria

## Symposium & Open Stakeholder Day 2025

Mark your calendar for September 23, 2025!

Exposome Austria invites to its “Symposium & Open Stakeholder Day” bringing together researchers, medical experts, and policy makers dedicated in their work to the intersection of **human health, environment and chemistry**.

Be part of this dialogue driving the global shift from traditional “repair medicine” to more proactive, personalized and preventive healthcare. Do not miss this transformative event and learn what services the Exposome/EIRENE Austria ESFRI Research Infrastructure offers.

Have your say in what will be needed in the future!

### Why Attend?

- Connect with leading experts across exposomics-related disciplines, incl. analytical chemistry, metabolomics, paediatrics, epidemiology, toxicology, cancer research, environmental and human health.
- Get informed and join the community, taking part in building a sustainable Austrian exposomics framework and the first European ESFRI Research Infrastructure for exposome research.
- Keynote lecture and presentation of results from best-practise demonstrator projects. Ample room for networking with key stakeholders, both Austrian and international ones, from academia, industry.

### Venue

campus HORN in Horn, Lower Austria\*

\* Need a ride? We can arrange a shuttle from Vienna upon request  
-- just let us know in your registration!

Supported by our valued partners

## Exposome Austria

SEPTEMBER 23, 2025

Established in 2022 as a founding member of the European EIRENE Research Infrastructure, the Austrian national node is dedicated to providing excellent researchers and innovative industries top-notch analytical, bioinformatics, and biomedical services.

Coordinated by the University of Vienna, we serve as a contact point in Austria and beyond in the areas of Environmental Health, Analytical Technology Development and Personalized Prevention.
